Test 15

Read the following text and answer the questions given below.

The Olympic and Paralympic Games

It finally happened: Tokyo welcomed the summer Olympic Games from July 23 to August 8 and became the “best ever prepared” host city, according to Thomas Bach, President of the International Olympic Committee. The competition, originally scheduled for 2020, was **postponed** due to Covid-19. Tokyo was selected as the host city during the 125th IOC Session in Buenos Aires, Argentina, on 7 September 2013. Originally scheduled to take place from 24 July to 9 August 2020, the event was postponed to 2021, in March 2020 as a result of the COVID-19 **pandemic**, the first such instance in the history of the Olympic Games (previous games had been cancelled but not rescheduled). However, the event retained the *Tokyo 2020* name for marketing and branding purposes. **It** was largely held behind closed doors with no public spectators permitted due to the declaration of a state of emergency in the Greater Tokyo Area in response to the pandemic. The Summer Paralympics were held between 24 August and 5 September 2021, 16 days after the completion of the Olympics.

The 2020 Games were the fourth Olympic Games to be held in Japan, following the Tokyo 1964 (Summer), Sapporo 1972 (Winter) and Nagano 1998 (Winter) games. Tokyo was the first city in Asia to hold the Summer Games twice. The 2020 Games were the second of three **consecutive** Olympics to be held in East Asia, following the 2018 Winter Olympics in Pyeongchang, South Korea and preceding the 2022 Winter Olympics in Beijing, China. New events were introduced in existing sports for 2020, including 3x3 basketball, freestyle BMX. Also mixed gender team events in a number of existing sports as well as return of madison cycling for men and an introduction of the same event for women occurred at the Olympics this time. New IOC policies also allowed the host organizing committee to add new sports to the Olympic program for just one Game.

The United States topped the medal count by both total golds (39) and total medals (113), with China finishing second by both respects (38 and 88). Host nation Japan finished third, setting a record for the most gold medals and total medals ever won by **their** delegation at an Olympic Games with 27 and 58. Great Britain finished fourth, with a total of 22 gold and 65 medals, becoming the first nation at the Summer Olympics to increase or equal their total medals won in the two Games subsequent to hosting them. The Russian delegation competing as the ROC (not to be confused with the Republic of China (Taiwan) which competed as Chinese Taipei, not ROC) finished fifth with 20 gold medals and

third in the overall medal count, with 71 medals. Bermuda, the Philippines and Qatar won their first-ever Olympic gold medals. Burkina Faso, San Marino and Turkmenistan won their first-ever Olympic medals. Next Olympic Games will be held in Beijing, People's Republic of China, from 4 to 20 February 2022.

(1) State whether the following statements are 'True' or 'False' by putting a tick (✓) in the relevant column.
