

G.C.E. (A/L) Examination – 2023(2024)

32 - Business Studies

Goals:-

This Question Paper includes questions to evaluate the competencies such as subject knowledge, understanding the usage of knowledge, and analyzing and synthesizing abilities as mentioned as the goals of the business studies syllabus.

Marking Scheme:-

Business Studies - paper I

Multiple choice	30 x 02 Marks each	=	60
Filling the Blanks	10 x 02 Marks each	=	20
Specific short answers	10 x 02 Marks each	=	<u>20</u>
			<u>100</u>

Business Studies - Paper II

Part I : 4 Questions

Part II : 4 Questions

05 questions should be answered selecting at least 02 questions from each part.

There are 08 questions. Each question includes 05 sections.

Each section carries 04 marks X 05	=	20 Marks
Total Marks 05 X 20	=	100 Marks
Paper I & Paper II	=	200 Marks
Final Marks	=	100 Marks

Common Techniques of Marking Answer Scripts.

It is compulsory to adhere to the following standard method in marking answer scripts and entering marks into the mark sheets.

1. Use a red color ballpoint pen for marking. (Only the Chief/Additional Chief Examiner may use a mauve color pen.)
2. Note down the Examiner's Code Number and initials on the front page of each answer script.
3. Write off any numerals written wrong with a clear single line and authenticate the alterations with the Examiner's initials.
4. Write down the marks of each subsection in a \triangle and write the final marks of each question as a rational number in a \square with the question number. Use the column assigned for Examiners to write down marks.

Example:

Question No. 03

(i)	✓	$\triangle \frac{4}{5}$
(ii)	✓	$\triangle \frac{3}{5}$
(iii)	✓	$\triangle \frac{3}{5}$

03	(i)	$\frac{4}{5}$	+	(ii)	$\frac{3}{5}$	+	(iii)	$\frac{3}{5}$	=	$\square \frac{10}{15}$
-----------	-----	---------------	---	------	---------------	---	-------	---------------	---	-------------------------

MCQ answer scripts: (Template)

1. Marking templates for G.C.E.(A/L) and GIT examination will be provided by the Department of Examinations itself. Marking examiners bear the responsibility of using correctly prepared and certified templates.
2. Then, check the answer scripts carefully. If there are more than one or no answers Marked to a certain question write off the options with a line. Sometimes candidates may have erased an option marked previously and selected another option. In such occasions, if the erasure is not clear write off those options too.

3. Place the template on the answer script correctly. Mark the right answers with a 'v' and the wrong answers with a '0' against the options column. Write down the number of correct answers inside the cage given under each column. Then, add those numbers and write the number of correct answers in the relevant cage.

Structured essay-type and essay-type answer scripts:

1. Cross off any pages left blank by candidates. Underline wrong or unsuitable answers. Show areas where marks can be offered with check marks.
2. Use the right margin of the overland paper to write down the marks.
3. Write down the marks given for each question against the question number in the relevant cage on the front page in two digits. The selection of questions should be in accordance with the instructions given in the question paper. Mark all answers and transfer the marks to the front page, and write off answers with lower marks if extra questions have been answered against instructions.
4. Add the total carefully and write in the relevant cage on the front page. Turn pages of the answer script and add all the marks given for all answers again. Check whether that total tallies with the total marks written on the front page.

Preparation of Mark Sheets.

Except for the subjects with a single question paper, the final marks of two papers will not be calculated within the evaluation board this time. Therefore, add separate mark sheets for each question paper. Write paper 01 marks in the paper 01 columns of the mark sheet and write them in words too. Write paper II Marks in the paper II Column and write the relevant details.
