7. Read the following paragraph about the life cycle of a butterfly. Complete the following diagram with the stages given in the box below. One is done for you.

The Life Cycle of a Butterfly.

A butterfly goes through some different stages in its life. A butterfly lays its eggs on a leaf. The larva or caterpillar hatches from an egg. It eats leaves or flowers. It eats them almost nonstop. The caterpillar then losses its old skin many times as it grows. Then it turns into a pupa (chrysalis). This is the resting stage. It rests in a plant or a tree for some time. Then one day a beautiful butterfly comes out of the pupa. It becomes an adult butterfly and the life cycle will continue.

The greedy Lion

Once upon a time there lived a lion in the forest. One afternoon, the lion started feeling hungry. He went hunting for food into the jungle. Soon he saw a rabbit hopping here and there all alone. The lion told himself "Such a small rabbit. He cannot satisfy my hunger. I will look for a big animal."

So the lion did not catch the rabbit. After some time the lion saw a deer. Then the lion wanted to hunt him. The hungry lion started running after the deer. The deer too ran very fast. Soon the lion felt tired because he was very hungry. He was not strong enough to run after a fast deer. He let the deer go. He was very hungry but he did not have anything to eat. He went back to catch the little rabbit. But then the rabbit was gone and the lion stayed hungry for the whole day. He told himself, "Greed is never good. We should be happy with what we have."
