(09) Read the passage and answer the questions given below.

Trees are very useful. Both men and animals get many kinds of food from them. They give us fuel for cooking and warmth and may also provide valuable medicine. The timber is used for making furniture and building houses and boats.

Another thing about trees is that they stop soil erosion. Their roots hold the soil tightly so that the wind cannot blow it away and the rains cannot wash it away. So it is our duty to look after trees and grow trees. We need to cut down trees sometimes, but we must plant others in their place. It takes only an hour or two to cut down a big tree but they take many years, or even centuries to grow.
