**G.C.E.(O/L) EXAMINATION - 2021 (2022)****Common Techniques of Marking Answer Scripts.**

It is compulsory to adhere to the following standard method in marking answer scripts and entering mark sheets.

1. Each Assistant Examiner should use red colour ball-point pen for marking answer scripts.
2. A purple colour ball-point pen should be used by Chief Examiners.
3. Code number of the Assistant Examiner should be noted down on front page of each answer script. Enter marks in clear numerals.
4. Write off incorrectly written numerals with a clear single line and authenticate the alterations with Examiner's initial.
5. Enter the marks of each subsection of a question as a rational number in the given space of  $\Delta$  and the final marks of each question should be entered as a total rational number in the given space of  $\square$  by denoting respective question number as well. Use the column assigned for the Examiners to write marks.
6. Evaluation Mark Finalizer should use blue or black colour pen to verify the accuracy of the marks.

**Example: Question No. 03**

(i)	.....	✓	$\Delta \frac{4}{5}$
(ii)	.....	✓	$\Delta \frac{3}{5}$
(iii)	.....	✓	$\Delta \frac{3}{5}$

$$\textcircled{03} \quad (i) \quad \frac{4}{5} \quad + \quad (ii) \quad \frac{3}{5} \quad + \quad (iii) \quad \frac{3}{5} \quad = \quad \square \frac{10}{15}$$

**MCQ answer scripts: (Template)**

1. Mark the correct options on the template according to the Marking Scheme. Cut off the marked windows with a blade. Cut off the cages for Index Number and the number of correct options so as to be able to keep the template correctly on the answer script. Cut off a blank space to the right of each options column to mark the answers. Cut off the cages for the subject number and the subject to be clearly visible. Submit the prepared template to the Chief Examiner for approval.
2. Then, check the answer scripts carefully. If there are more than one or no answers marked to a certain question write off the options with a line. Sometimes candidates may have erased an option marked previously and selected another option. In such occasions, if the erasure is not clear write off those options too.
3. Place the template on the answer script correctly. Mark the right answers with a '✓' and the wrong answers with a 'X' against the options column. Write down the number of correct answers inside the cage given under each column. Then, add those numbers and write the number of correct answers in the relevant cage.

**Structured essay type and essay type answer scripts:**

1. Cross off any pages left blank by candidates. Underline wrong or unsuitable answers and write cross mark. Point-out areas by a check mark, where marks can be offered.
2. Use the right margin of the overland paper to write down the marks.
3. Write down the marks given for each question against the question number in the relevant cage on the front page in two digits. Selection of questions should be in accordance with the instructions given in the question paper. Mark all answers and transfer the marks to the front page, and write off answers with lower marks if extra questions have been answered against instructions.
4. Add the total marks carefully and write in the relevant cage on the front page. Turn pages of answer script and add all the marks given for all answers again. Check whether that total tallies with the total marks written on the front page.

**Preparation Of Mark Sheets.**

Except for the subjects with a single question paper, final marks of two papers will not be calculated within the evaluation board. Therefore add separate mark sheets for each of the question paper. Enter paper I marks in "Total Marks" column of the mark sheet and write them in words as well. Enter paper II Marks in the "Total Marks" Column and include the relevant details. For the subject 43 Art, Paper I, II and III Marks should be entered numerically in the separate mark sheets and should also be written in words.

For subjects 21 Sinhala language and literature and 22 Tamil Language and literature, paper I marks once entered numerically should be written in words. Use separate marks sheets for the papers II and III and enter the total marks in the "Total marks column". Write the relevant detailed marks against each of the total mark.

**N.B.:-**

- I. Final marks for paper I, paper II or paper III should always be rounded up to the nearest whole number and they should never be kept as decimal or half values.
- II. Each page of the mark sheet should be compulsorily verified by the Assistant Examiner who entered marks to the mark sheet, Assistant Examiner who checked the mark sheet, the Verifying Examiner of the evaluation marks and Chief Examiner by placing respective code number and the signature.

### Snakes In Sri Lanka

Sri Lankan reptiles count nearly 209 known species with great diversity. These reptiles consist of snakes, lizards, crocodiles, turtles and tortoises. Almost 125 species of them are endemic to Sri Lanka.

Around 83 species of snakes have already been found in Sri Lanka. Twelve species of earthly snakes and twelve species of sea snakes are venomous. The specimens of extremely venomous snakes in Sri Lanka are mostly found in the dry zone. In addition, sea snakes living in the sea around Sri Lanka are more venomous than earthly snakes.

It is reported that at present there are nearly 4060 species of amphibians in the world. The number of amphibian species found in Sri Lanka, however, is 50.

## ○ Test 7

Read the story and answer the questions.

Once there lived a girl named Narmada. She had a lovely house and a beautiful garden on a top of a hill. She was very happy living there because there were many insects such as butterflies, dragonflies, ants, bees and beetles there. She loved to watch her pet, the baby squirrel chasing butterflies. All these creatures made her garden their permanent home. Narmada took care of them well. But among all, the baby squirrel was her best friend.

One day, the baby squirrel had a fall and fell sick, so everyone became sad as it lay upwards keeping its eyes closed. She sprinkled a little water on its eyes, but it did not respond.

Narmada was so worried and she fed her little pet with some milk. She stroked its head until it fell asleep.

Then she murmured in a soft voice. "You, my baby squirrel, get well soon. If you hear me, please open your eyes".

A few minutes passed by. The baby squirrel opened its eyes. It looked at Narmada in a very grateful manner as if it was thanking her for all what she had done.

The baby squirrel limped slowly near Narmada and looked at her eyes as to say, "Thank you for taking good care of me".

Narmada held the baby squirrel, kissed its forehead and said, "A friend in need is a friend indeed".

26<sup>th</sup> May 2022.

Dear Kamalash,

Hope you are doing well. I'm getting ready for the upcoming O/L exam. How about you?

Since I left our old school, I missed studying together with you. But I always think of your studies.

I met Gremunu last week. He told me you spend more time for your sports activities these days and you sometimes miss your after school and online lessons too.

Doing sports is a very good thing, to have a healthy life. But, you need to study well and pass the exams to have a good future. If you do not study hard, you will not find a good job.

Therefore, do your sports, but study hard.

Hope you will not miss your lessons again. Work according to a timetable. That is how I balance both sports and studies.

Hope to meet you during the next school vacation.

Yours,

Nikesh

a) Importance of learning another language.  
We use languages to communicate with each other. In Sri Lanka our main languages are Sinhala and Tamil. We learn one as our mother language and the other one as our second language. Learning either of the languages helps to maintain ethnic harmony.

We also have opportunities to learn Japanese, French, German, Chinese, Russian, Hindi and Korean in our school system. I like to learn English as well as Japanese. English is the most widely used language in the world. We need to learn English to learn more about the latest trends in the areas we are interested in.

For example, the mostly used language to browse the internet is English. In order to use Google or any other search engine, we should have a good knowledge in English.

We need English for our higher education too. Many courses in <sup>both</sup> government and private universities are conducted in the English medium. The books we have to refer to for higher education are also written in English.

I would like to be a mechanical engineer one day. My dream is to go to Japan for my higher studies. Therefore I am learning both English and Japanese. One day I hope to go to Japan and find employment there after completing my higher studies.
